

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph at page 11, lines 24-26 as follows:

A conventional precipitation agent is water or a corresponding polar liquid, such as a [[C₁₋₆-alcanol]] C₁-C₆ alkanol, or a non-polar carbon hydride, such as a C₄₋₂₀-alkane, preferably a C₅₋₁₀-alkane, or a mixture of alkanes.
